

**A.C. di Amati Carlo e C. s.a.s.**

## **Projectisas de Electrodomésticos Home Appliances Designers**

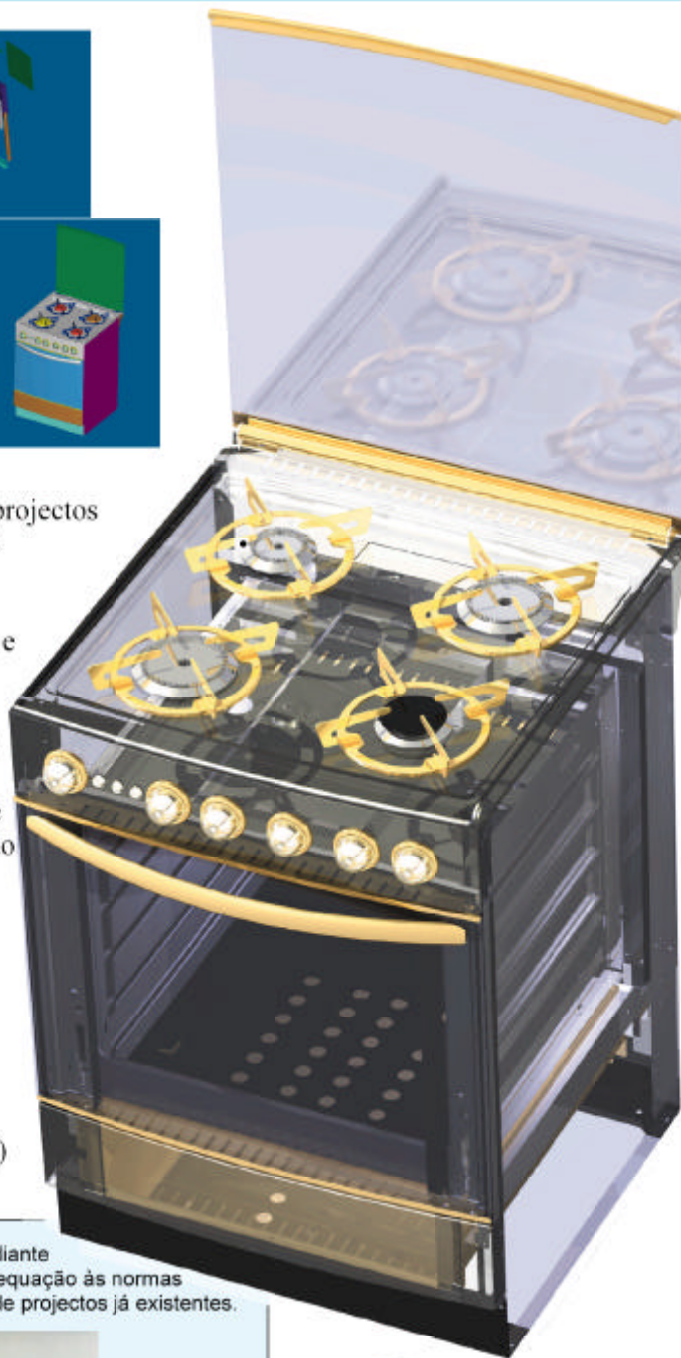

### **A.C. pode fornecer:**

- Estudos de design e projectos completos para fogões (a gás e eléctricos, free-standing e de encaixe), aquecedores e pequenos electrodomésticos.
- Tecnologia relativa à realização industrial do projecto (lay-out de fábrica, industrialização do produto, ciclos de trabalho, projectos completos de combustão, etc.)
- Projectos dos componentes (queimadores forno, queimadores plano, manipululos, pegas, etc.)

Testes de produtos (mediante laboratório interno) e adequação às normas de segurança em vigor de projectos já existentes.

Our lab is provided to test products according CE-EN30 norms.

### **A.C. can supply to its clients:**

- Design studies and complete projects of cookers (gas and electric, built-in and free-standing), stoves and little domestic appliances.
- The technology necessary to industrial development of project (factory lay-out, industrialization of project, working schedules, complete combustion projects,...).
- Design of components: burners for ovens and grills, knobs, handles,...
- Product test (internal laboratory) and adaptation of pre-existing projects to the regulations in effect.
- Creation of new aesthetic and functional solutions on pre-existing projects.
